ABOUT US

Since 1999, COSMOS SOUND, LIGHTING & VIDEO has been Los Angeles's primary entertainment equipment supply and production destination, servicing its clients with sound, lighting & video services, as well as general AV repairs and upkeep.

The idea of making our own production space has always been on our minds. However, due to the 2020 pandemic, there have been some adjustments in the entertainment world towards virtual events and streaming.

So, here we are launching our new project called COSMOS STUDIOS – the ultimate rental space for film, photography, video production, and online events.

The studio has 2 stages, makeup and lounge rooms, and a production bay.

Each client is our top priority because we believe that "no event is too small"!
